1 Executive summary

1.1 Overview

- 1.1.1 On 29 July 2026, we published Consultation Paper No. 8 2025 seeking feedback on our proposed fees for 2027, including a proposed general increase of 3.5% across most fees.
- 1.1.2 We received seven responses from a cross-section of industry stakeholders, including regulated businesses, professional services firms and industry representatives. The responses provided valuable feedback on both the proposed fee increase and the broader impact of regulatory fees on industry.

1.2 Feedback received

- 1.2.1 Respondents generally recognised the importance of maintaining a well-resourced regulator that is capable of delivering effective supervision, supporting Jersey's reputation as a leading international finance centre and investing in its future regulatory capabilities.
- 1.2.2 However, respondents were split in terms of support for the proposed increase, with a slight majority for those that did not support the proposed 3.5% increase. Concerns were raised regarding affordability, competitiveness, transparency and the cumulative impact of regulatory costs.
- 1.2.3 We carefully considered the feedback received. Fees will therefore be uplifted by 3.0% for 2027, with the high-level rationale for this decision outlined below.

1.3 Outcome

- 1.3.1 Following consultation, we have decided to reduce the general fee increase for 2027 from 3.5% to 3.0%.
- 1.3.2 This decision reflects industry feedback and greater certainty from our updated 2027 financial planning, including expected expenditure, investment costs and reserve levels.
- 1.3.3 We believe the revised increase strikes an appropriate balance between maintaining sustainable funding which allows us to effectively deliver on our responsibilities and recognising the cost pressures facing industry.

1.4 Next steps

- 1.4.1 Following this consultation, we will publish changes to the fees which will be effective from 1 January 2027.

2 Consultation feedback

2.1 Feedback received

- 2.1.1 The consultation attracted **seven responses**, with a clear majority opposing the proposed increase and an even stronger majority identifying concerns about its impact. The qualitative feedback is generally focused on whether the proposed increase, underlying methodology and allocation of fees are sufficiently transparent, proportionate and competitive.

2.2 Responses to the consultation questions

Question 1: Do you agree with the proposed 3.5% increase across most of the fees for 2027?

- 2.2.1 Four respondents disagreed with the proposal and three respondents agreed.
- 2.2.2 Responses to this question reflected a range of views. While respondents generally acknowledged the importance of ensuring that we remain appropriately funded to discharge our statutory responsibilities and maintain effective supervision, a majority did not support the proposed 3.5% increase.
- 2.2.3 Those who did not support the proposed increase primarily questioned the rationale for an increase above the most recently reported Jersey inflation rate. Respondents suggested that additional information would assist stakeholders in understanding how the proposed increase had been determined and the factors contributing to it. Several respondents also highlighted the importance of ensuring that regulatory costs remain proportionate and transparent.
- 2.2.4 A number of respondents commented on the wider operating environment facing regulated businesses, noting the continued focus on efficiency, productivity and cost management across the financial services industry. These respondents encouraged ongoing consideration of efficiency improvements when setting future fee levels.
- 2.2.5 Competitiveness was also a recurring theme. Some respondents expressed concern that continued fee increases could contribute to higher operating costs for businesses in Jersey and potentially affect the island's position relative to other international finance centres. In particular, comparisons were drawn with other jurisdictions, including Guernsey, where respondents noted differences in regulatory fee levels.
- 2.2.6 Respondents who supported the proposal generally recognised the need for us to maintain sufficient resources to fulfil our regulatory responsibilities, invest in technology and data capabilities, and support initiatives relating to financial crime prevention and operational resilience. However, even among those who were supportive of the proposed increase, some respondents emphasised the importance of maintaining Jersey's competitiveness and ensuring that regulatory costs remain proportionate.

Question 2: Do you have any concerns about the proposals or their potential impact, including on your sector?

- 2.2.7 Six respondents identified concerns, while one respondent raised no concerns.
- 2.2.8 The most frequently cited concern related to the cumulative impact of regulatory fees on the competitiveness of Jersey as an international finance centre. Respondents noted that, while individual annual increases may be relatively modest, the effect of successive increases over time could contribute to higher operating costs for businesses. Some respondents suggested that this may be a relevant consideration when firms assess the relative attractiveness of different jurisdictions.

- 2.2.9 Respondents sought greater visibility of the information, assumptions and analysis informing the fee proposals. Respondents considered that additional information would assist industry in understanding the basis for proposed fee changes and their potential implications.
- 2.2.10 One respondent, representing a trust company business, raised concerns regarding the proportionality of the current fee structure for trust company businesses, suggesting that the use of licence numbers as a basis for calculating fees may not fully reflect differences in the size, complexity or risk profile of firms. The respondent suggested that further consideration could be given to whether the existing approach appropriately reflects the characteristics of different businesses within the sector.
- 2.2.11 A separate operational issue was raised in relation to the application and presentation of the company incorporation "proposed name" fee. The respondent requested greater clarity regarding the fee's inclusion within published fee schedules and sought further explanation of the basis on which the fee is applied.

Our response

- 2.2.12 We thank respondents for their constructive feedback on the proposed 2027 fee increase and the wider issues raised regarding regulatory costs, competitiveness, transparency and proportionality. We have carefully considered all responses alongside our latest financial planning and budget assumptions.
- 2.2.13 Since publishing the consultation, we have completed a detailed bottom-up budget review for 2027, which remains subject to Board approval. This has provided greater certainty about our funding requirements. As a result, we have decided to reduce the proposed 2027 fee increase from **3.5% to 3.0%**.
- 2.2.14 This reflects increased certainty over our expected expenditure, including technology investment and ongoing operational costs. Our office move is also expected to cost less than originally budgeted, and current forecasts indicate that retained earnings will remain within our policy parameters.
- 2.2.15 In reaching this decision, we considered a range of financial and economic factors, including the Fiscal Policy Panel's Economic Assumptions (July 2026), inflation forecasts and the potential impact on our largest areas of expenditure, including people and technology costs.
- 2.2.16 Our strategy, business plan and annual accounts set out our priorities, planned activities and investment requirements. Together, these documents provide transparency about the outcomes we aim to deliver and the resources required.
- 2.2.17 We recognise the importance of maintaining Jersey's competitiveness and acknowledge calls for greater transparency in the fee-setting process. We remain committed to engaging with industry and will continue to consider feedback received through future fee consultations and ongoing improvement work.
- 2.2.18 The revised increase of **3.0%** provides sustainable funding for our planned activities while recognising the economic environment in which firms continue to operate.

3 Next steps

- 3.1 Following consideration of the consultation responses, we will publish the final fees notice for 2027 by 30 September 2026. The final will come into effect on 1 January 2027.

1 Deposit-taking business

Application fees

In the case of a person applying to be registered under the (BB(J)L, a fee is payable, on application, of:	£33,814*
*Plus the annual fee, pro-rated at a rate of one twelfth of the annual fee per month from the date of application granting until the next 1 January.	Calculated in accordance with the calculation notes below

Annual fees

The annual fee is the sum of the components in Table 1 below, if the JFSC is the home supervisor in relation to the person applying for registration, and currently registered, under the [BB\(J\)L](#).

If a deposit-taker undertakes a new operation after 1 January in any year, with a factor relevant to paragraphs 1 to 4 of the annual fee calculation they should calculate a revised annual fee, and notify the JFSC accordingly. The revised annual fee is the incremental sum of the relevant components and is pro rata reduced, by being one-twelfth of the incremental sum multiplied by the number of whole or part calendar months between the date of opening and the end of the annual fee period. (For example, if a deposit-taker incorporates a new deposit-taking subsidiary in another jurisdiction in, say, May, then an incremental fee of (£32,829/12) x7 months is payable.)

Reduced fees: business continuity applications

These fees apply whether or not the applicant's business operations in a place where they are normally carried on outside Jersey, have already been disrupted in that other place. **Where reduced fees apply, the part of the prescribed fee shall be reduced by 50%.**

Reduced **application** fees for registration for business continuity are only payable if the JFSC is satisfied that:

- i. a person who is applying for registration under Article 9 of the BB(J)L is a member of the same group of companies as another person who is registered under that Article;
- ii. the first person is applying for registration so as to be able to use the other person's business facilities in Jersey for, but only for, the purpose of business continuity; and
- iii. at the time when the application is made, the first person is not registered under the BB(J)L.

Reduced **annual** fees apply if the JFSC is satisfied that a person is registered under Article 9 of the BB(J)L for, but only for, the purpose of business continuity in the event of the future disruption of the person's business operations in a place where they are normally carried on outside Jersey. However, in the course of a period for which the annual fee is payable:

- i. disruption of the person's business operations in a place where they are normally carried on outside Jersey actually occurs; and
- ii. the person begins to carry on operations in Jersey for the purpose of business continuity,

the balance of the annual fee for that period shall become payable.

Calculation notes - For the purposes of this fees' notice:

Application fee – pro-rated annual fee	The annual fee components 1 to 4 in Table 1 shall be calculated on the basis of the factors mentioned in each paragraph. When applying to be registered, the calculation shall be undertaken using the factors the
--	--

	applicant expects to be in place when the business to which the application starts operations. With regards to annual fee component 5, the consolidated income is the higher of total income and “deemed income”. • Total income is calculated as that which the person expects to report for the next calendar year starting at midnight on 31 December of the year following the making of the application (whether the application relates to that year or to another period). • Deemed income is calculated as an amount equal to 0.1% of its total assets plus the amount of its total operating expenses: • total operating expenses: for the calendar year starting at midnight on 31 December following the making of the application; and • total assets: as at the end of that period. Note: For the avoidance of doubt, the total income, total operating expenses and total assets of a BB(J)L registered person includes all income, operating expenses and assets of the BB(J)L registered person and not just those relating to its deposit-taking business.
Country	For the purposes of the annual fee paragraphs 1 to 4, country means: • a territory is taken to be a country if the territory is co-extensive with a discrete jurisdiction concerned with the supervision of deposit-taking business; • Jersey is a country; • Guernsey is a country and Alderney and Sark are parts of that country; • the Isle of Man is a country; • each member state (however described) of the following federations is taken to be a separate country: • the United Arab Emirates; and • the United States of America.
Consolidated Income	The Consolidated Income referred to in the annual fee calculation must be calculated as the higher of the Total Income and the Deemed Income of the person. Total Income - The total income means the total income of the BB(J)L registered person arrived at in accordance with prudential reporting guidance. This must be calculated on a consolidated basis if the BB(J)L registered person has banking subsidiaries, or on a solo basis otherwise. The total income must be that calculated for the relevant period, being: • the total income for the calendar year ending on 31 December of the previous year, or; • in the case of a person registered under the BB(J)L whose business to which the registration relates did not operate for the whole of the year ending at midnight on 31 December in the current year, the total income that the person expects to report for the next calendar year, starting at midnight on the 31 December. Deemed Income - The Deemed Income of a BB(J)L registered person means an amount equal to 0.1% of its total assets plus the amount of its total operating expenses, each arrived at in accordance with prudential reporting guidance. The components must be calculated on a consolidated

	basis if the BB(J)L registered person has banking subsidiaries or on a solo basis otherwise. The components must be those calculated for the relevant period, being: › total operating expenses for the calendar year ending on 31 December of the previous year; and › total assets: as at the end of that period. In the case of a person registered under the BB(J)L whose business to which the registration relates did not operate for the whole of the year ending at midnight on 31 December in the previous year: › total operating expenses for the calendar year starting at midnight on the following 31 December; and › total assets: as at the end of that period. Note: For the avoidance of doubt, the total income, total operating expenses and total assets of a BB(J)L registered person includes all income, operating expenses and assets of the BB(J)L registered person and not just those relating to its deposit-taking business.

- (i) the individual undertakes to do or perform, directly or indirectly, any work or service within a firm of accountants or lawyers, whether or not engaged directly by the firm of accountants or lawyers or through another entity forming part of the group of entities of which the firm of accountants or lawyers is a part, and;
- (ii) the firm of accountants or lawyers is not by virtue of the contract a client or customer of the individual, and "relevant employee" shall be construed accordingly

For clarity **relevant employee includes**, but is not limited, to:

- a) a partner practicing law or accountancy whether alone or with others;
- b) an individual classified as self-employed for tax or social security purposes but in all other respects meets the definition of relevant employee;
- c) an individual based or working outside of Jersey but engaged within the Jersey business of the firm of accountants or lawyers; and
- d) an individual engaged by a firm of accountants or lawyers which is a Jersey entity wherever in the world that individual works or is based and whether or not that individual is engaged in the Jersey business of that firm of accountants or lawyers.

For the avoidance of doubt, relevant employee **does not include** an individual engaged by a firm of accountants or lawyers to provide services that are not directly related to the regulated activity (such as IT, HR, Reception).

For individuals with fixed term contracts that do not span the full calendar year, the hours worked should be annualised and the bandings applied when calculating the number of relevant employees.

The following bandings should be applied when calculating the number of total relevant employees:

- | | | |
|------|---|------------------|
| i. | up to and including 9 hours per week | 0.25 of a person |
| ii. | over 9 hours and up to and including 18 hours per week | 0.50 of a person |
| iii. | over 18 hours and up to and including 27 hours per week | 0.75 of a person |
| iv. | over 27 hours per week | 1 person |

The calculation of the number of relevant employees should be undertaken as at the relevant date based upon the relevant employee's engagement over the preceding 12 months. If, on the relevant date, there exists a post that is vacant but would normally be occupied by an individual who meets the definition of a relevant employee, then the calculation should include that position.

Working examples:

- a) fixed term contract.
An individual who has a fixed term contract and is contracted to work full-time (35 hours per week) for four months would equate to:
- $35 \text{ hours} \times 4 \text{ months} \div 12 \text{ months} = 11.67 \text{ hours per week}$
 - The individual would therefore be equivalent to 0.5 of a person in the calculation of the number of relevant employees.
- b) part time working.
An individual who is employed part-time for the whole year at 25 hours per week would represent 0.75 of a person in the calculation of the number of relevant employees.
- c) part time working + fixed term contract.
An individual who is employed part-time on a fixed contract (20 hours per week for 6 months) would equate to:
- $20 \text{ hours} \times 6 \text{ months} \div 12 \text{ months} = 10 \text{ hours per week}$
 - The individual would therefore be equivalent to 0.5 of a person in the calculation of the number of relevant employees NOT 0.75 of a person.

12 Late fees

Late payment of fees

If the JFSC does not receive a fee due by the due date an additional late payment fee of **5%** of the unpaid principal amount will be applied on the day after that date, and on the first day of each calendar month after that.

Late submission of information for fees calculation

Where applicable, if a firm does not supply the required information to calculate its annual fee by the due date stated on the form, an administration fee of **£200** will be charged the following day, and on the 1st day of each calendar month after that while the information is still outstanding. This is in addition to the late payment fee which will be calculated once the information has been submitted.

Late filing fees

If a person fails to file or deliver any document, required notification, or information (other than required information to calculate the annual fee), to the JFSC under the provisions of the relevant laws or under the provisions of any Order issued in accordance with the relevant laws on or before the date that the submission becomes due, that person shall be liable to pay a fee of **£200** on the day after the submission falls due and an additional **£200** on the first day of each calendar month after that. This shall apply while the submission remains unfiled or undelivered unless the person has given the JFSC prior written notice of the reasons for the late filing or delivery of the document and the JFSC has agreed in writing that the filing may be late. Any such later agreed date shall become the due date for the purposes of the calculation and the payment of late filing fees.
